LET THE CHILDREN FORM A HABIT

Make that habit the daily brushing of their teeth. A tooth brush without a pleasant tasting dentifrice will not be used by them. Provide them with Meritol Tooth Paste and the habit will grow. Take them to the dentist at least twice yearly. Meritol Tooth Paste is not gritty, possesses a delicious flavor, and contains Aramol. Aramol is a new antiseptic. It is perfectly harmless to the most delicate tissue, but is all the while a powerful germicide. It destroys all form of bacteria including pyorrhea. (Convenient tubes at 25c).

Good Business

Demands Good Clothes

It's the idea of a uniform that makes a soldier stand straight; a uniform isn't a shoulder brace but it has the effect of one. It's the same way with good stylish clothes in every day life. They brace a man's confidence; make him sure of himself.

CHEAP Clothes too often remind the Wearer they are Cheap; moral effect is bad, but more than that they are the most expensive clothes.

Certain-teed

Roofing - Paints - Varnishes

Certain-teed means certainty of quality and guaranteed satisfaction—

the first and last object of careful buyers. Both quality and satisfaction are guaranteed by a business which has gained world leadership because of its ability to manufacture and distribute the highest quality products at fair prices.

Certain-teed
Roofing & Shingles

Certain-teed is a conservation product. It is made from rags and asphalt, skillfully converted into roofing that is impervious to the elements.

Certain-teed is the most efficient type of roof for all kinds of buildings, from the modern skyscraper to the farm barn. It is light weight, weatherproof, clean, sanitary, fire-retardant. *Certain-teed* is not affected by fumes or gases, and cannot rust or corrode. Its first cost is moderate, laying cost low, and upkeep practically nothing. *Certain-teed* is guaranteed 5, 10 or 15 years, according to thickness.

Certain-teed
Paints & Varnishes

Made from the best quality materials, mixed by modern machinery in scientifically correct proportions to produce the highest quality paint.

Certain-teed Paints and Varnishes are sold at cost plus a small profit. Each color is priced according to its cost. Paint makers usually charge the same for all colors, basing their prices on the cost of making the expensive colors. The *Certain-teed* policy puts each color on the right basis. Therefore most *Certain-teed* Paints cost you less than competing paints of anything like the same high quality.
